### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment; it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 8, line 7, before 'wheel departure angle', "the" has been changed to --a--.

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

The present application relates to a control apparatus for controlling a system of an automotive vehicle in response to sensed dynamic behavior, and more specifically, to a method and apparatus for desensitizing the activation criteria based on vehicle operating conditions. The claimed invention sets forth a method of controlling a vehicle by determining a relative roll angle, the relative roll angle being an angle between a body of the vehicle and wheel axis, determining when the vehicle is in a transitional maneuver, when the vehicle is in a transitional maneuver, setting a roll signal for control to the relative roll angle, and when the vehicle is not in a transitional maneuver and the relative roll angle is less than a threshold, setting a reference bank to the maximum of a previously determined reference bank or the relative roll angle plus a wheel departure angle. The claimed invention also sets forth when the relative roll angle is above a non-transition threshold and a wheel lift status is grounded, adjusting a reference bank angle

to the maximum of either the reference bank angle or the relative roll angle plus the wheel departure angle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacques H Louis-Jacques whose telephone number is 571-272-6962. The examiner can normally be reached on M-Th 5:30 AM to 4:00 PM.
